

Sheehan Sista

PROFILE

Hi, I'm Sheehan. I was born in India and moved to Germany to study design in 2016 at the Academy of Fine Arts, Leipzig. Communication is at the center of everything I do, from the design of letterforms to the layout of a website. It even spills over into my other creative endeavours in writing and music. Rather than to describe myself as a typeface or graphic designer, I coined a funny a term of my own, **LetterForm Designer**. I think it better encompasses my varied pursuits in graphic design, typeface design, wordmark design and UI/UX Design.
